

**REMARKS**

Applicant has submitted new claims particularly targeted to commercial products being introduced by third parties.

Support for these claims is found in the applications incorporated by reference. Rather than attempt to edit the present specification to include the text from the prior specifications, applicant proposes submitting a clean, substitute, specification -- together with a suitable declaration that no new matter is added. Kindly advise in the first Office Action whether this is agreeable to the Office.

Respectfully submitted,

KLARQUIST SPARKMAN CAMPBELL  
LEIGH & WHINSTON, LLP
